

How Long Have You Been A Private Mathematics Instructor?

- ▶ Having first started doing so in 2003, I have been in the business of providing the service of private mathematics instruction now for more than two decades.

What Courses Are You Qualified To Teach?

- ▶ Long story short, between my single subject teaching credential and Master's degree, I'm fully qualified to be the official instructor of record for anything grades 7-14 at any middle school, high school or community college in the state of California. All things Calculus is my specialty, but I am perfectly capable of teaching a wide variety of courses from the standard mathematics curriculum, including (but not limited to) such classic subjects as Arithmetic, Algebra, Geometry, Trigonometry, Calculus, Differential Equations, and Statistics, as well as miscellaneous physical science courses.

How Much Does Private Mathematics Instruction Cost?

- ▶ My standard hourly rate is \$120 per instructional hour, as justified below.

\$50 Bachelor of Arts in Mathematics	\$30 M.A. in Mathematics	\$20 Teaching Credential	\$20 Experience & Expertise
---	---------------------------------------	---------------------------------------	--

What Is An Instructional Hour?

- ▶ Per standard academic practice, an instructional hour is 55 minutes in length.

Do You Offer Any Pricing Discounts?

 **Yes.** A number of standard discounts and promotions are always available.

 **Art Prints Promotion:** As you've surely noticed by the small sample of some of my better work sprinkled around my portfolio, I'm also active as a visual artist. If you purchase an original art print from my online store, you will receive 25% off of your next instructional hour. Available to redeem online or in-person.

 **Group Discount:** Up to five students may split the full cost of an hour of private mathematics instruction in the course of your choice. Group formation and payment split is the customer's responsibility. Available to redeem online or in-person.

 **Referral Discount:** Refer a friend and receive a one time 15% discount off of your next instructional hour after they pay for at least one instructional hour. Discount is good for each such unique referral. Available to redeem online or in-person.

 **After School Special:** For Elementary Algebra or A.P. Calculus only. Receive 50% off of your instruction if you use one of the after school online hours as indicated on the schedule below. Please note that up to three different students may book the same hour. Available to redeem online only.

 **Saturday School Special:** \$40/hr Flat Rate. If you schedule one of the dedicated Saturday school courses, one instructional hour is only \$40. Please note that up to five total students may join any given hour. Available to redeem online only.

 **Home Schooling Special:** If you're interested in outsourcing your home school mathematics instruction, I offer a \$500 per week rate. You must book one full week of instruction at a time, however, up to five students may join. This is a full service instruction and assessment option. Available to redeem online or in-person.

 **College Student Special:** Present me with a valid College ID card and receive a 50% discount off of all of your one-on-one private mathematics instruction in the course of your choice. Available to redeem online or in-person.

Where Do You Provide Services?

 Online video chat is the preferred format for the delivery of instruction services whenever possible. As appears on my schedule below, I have dedicated blocks (with discounted rates) for online instruction of high demand subjects. Private mathematics instruction in the course of your choice can be either online, or upon request, in person locally. In person instruction is usually provided at a public place like a coffee shop or library, but I can also come to your residence and provide at home services if so desired.

🕒 When Do You Provide Services?

- The following schedule provides a general overview of my availability. Course specific hours are reserved for online instruction only. Block hours are for either online or in-person instruction in the course of your choice, although for logistical reasons such as extra travel time and expenses, online instruction is my own personal preference if and when it is possible to do so.

ONLINE INSTRUCTION SCHEDULE

TIME	SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
8:00 to 8:55 am	No Availability	Private Mathematics Instruction SUBJECT TO AVAILABILITY					Elementary Algebra
9:00 to 9:55 am							Intermediate Algebra
